## Toggle Visited Links Crack [32|64bit]

Description Toggle Visited Links Serial Key is a plugin that will toggle on/off your visited links from a webpage custom style for visited links and opacity for images on visited links. The plugin can apply custom style to links opened by drag & drop and middle click. Important: The plugin consists of 2 versions - one for Maxthon and another for MyIE2 (for transition). Users should use the max version for Maxthon and the MyIE2 version for MyIE2. Users may modify the folder name of plugins but should not modify any file names inside. Otherwise the plugins may not work. Requirements: · Maxthon 1.1.090+ Toggle Visited Links Description: Reviews Rating (8) 8 (2) 8 (0) 7 (1) 6 (1) 5 (1) 4 (0) 3 (0) 2 (0) 1 (0) 0 (0) (0) 0 (0) 0 (0) 0 (0) All 1 reviews Page I like the animation. It seems fast. Not much to complain about. Evan V. December 10, 2015 A better version of browsing history plugin. Paul S. December 9, 2015 This is fantastic! Thank you. I had been looking for a plugin to help with viewing history in the new Firefox. I have now just found it. Herbert P. December 9, 2015 I'm using Maxthon 2.2 and although I've installed the Toggle Visited Links plugin, I don't see any effect in the customization settings. Please advise. Yuriy D. December 9, 2015 Superb and clean! Yuriy D. December 9, 2015 Superb and clean! Philip G. December 8, 2015 Very useful Maryanne P. December 8, 2015 This is a nice tool. I love the drag and drop functionality. Tutorials We offer several simple videos, most of which can be viewed in flash. They also may be viewed as mp4, html5, mp3, wm

## Toggle Visited Links Crack Latest

1. Keystrokes for Mac OS X Keystrokes in Mac OS X is a user-interface plugin for Maxthon. It provides a special keyboard shortcut to toggle the menu, and open the Status Bar and View Menu.
