Computers TrekMap Italia is a grid projection developed by TrekMap and distributed by Tele Atlas. It is mostly used as base map for autonomous navigation devices, due to its accuracy and precision. TrekMap Italia is suitable for high-resolution portable GPS devices, and can be used on smartphone GPS devices. It is an overlay map and may be

combined with a map matching service, and can also be used for navigation purposes on desktop GPS devices. .A\$239.99 Jun 4, 2012 TrekMap Italia 3 v.3.0.
